Ovitt Hosts Education Forum

Chino- County Supervisor Gary Ovitt hosted a forum at Doris Dickson Elementary School, located in the unincorporated area of Chino, to met with residents and discuss county related issues affecting the community.

“I want residents of the 4th district to be aware of services their tax dollars pay for and how they can utilize them,” Ovitt stated. “In addition, I am committed to protecting our children and want to discuss ways of protecting them with parents.”

Supervisor Ovitt discussed soon to be announced projects in the unincorporated area that will assist with students’ safety around Doris Dickson Elementary. The proposed projects will include improvements in infrastructure such as additional sidewalks, stop signs, and curbs around the school campus.

“As a former school-teacher, I understand the safety concerns that accompany our schools,” Ovitt said. “Additional Crossing-Guards, curbs, gutters and sidewalks are ways we can help address those concerns.”

This will be the first of many education related forums that the Supervisor will be conducting throughout the district.
